

New Product Release

Panasonic Full body camera S78785 WV-CP294E true D/N camera

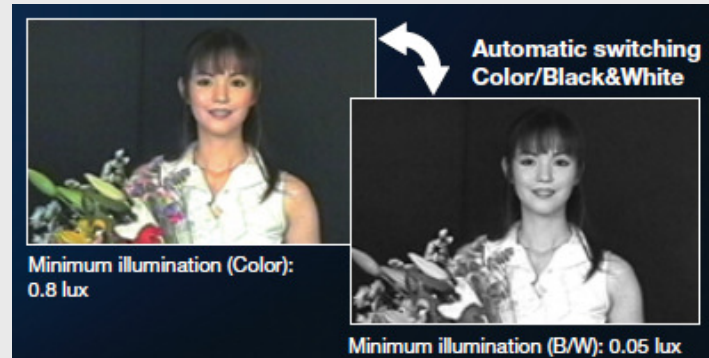

Pacific Communications is pleased to offer another quality camera from Panasonic. This true day/night camera boasts 540TVL giving crisp clear images and includes adaptive black stretch (ABS) to enhance visibility in dark areas of the picture. Panasonics newly-developed DSP utilizes the Adaptive Black Stretch technology to automatically detect dark areas inside an image, applying the most suitable correction curve based on brightness data of areas surrounding the dark area. This image processing algorithm transforms shadows and dark areas into natural and crisp images in real time.

Great Quality at a great price and in stock now!

Features:

- ❖ 540TV lines.
- ❖ High sensitivity with D/N function: 0.6lux (Colour) ,0.04lux (B/W) @ F1.2.
